

From One GENERATION to Another!

As Father's Day approaches, our country's culture has found another crisis. Recent surveys indicate that one in every three children is growing up without a dad in their home. Fathers are absent, yet we know for every pregnancy, a father was involved.

At the Alpha Center, we reach out to fathers by offering them assistance, our Earn While You Learn program, mentoring and counseling. They come in at all different ages, different seasons in life, and with different responsibilities already in place. Once committed to giving their child the gift of life, we offer training and teaching for the soon-to-be-fathers. **The value of providing mentoring from a seasoned father to a young man is priceless.** A great father in every home will bring about revolutionary changes in our country and our culture.

one in every three children is growing up without a dad in their home.

The characteristics of a Christlike father can be transferred down from one generation to another. Involved fathers, sons and grandsons can certainly make remarkable contributions to society. Men play a vital role in maintaining a healthy, wholesome and moral society. Our nation is in desperate need of such revival, and it will start with one dad and one family at a time.

The father is the head of the household, and he has a responsibility to guide, guard, and govern his family. He has the opportunity to raise up children to be Christlike, so that when they are older they are well equipped and will not depart from the ways of the Lord. Maturity in men begins with the acceptance of responsibility. **The Alpha Center empowers and equips men to accept the responsibility of their expected child and grow in maturity.**

Alpha Center's Fatherhood Mentor program

The Alpha Center continues to move forward by providing ministry to young men who walk into our office with their girlfriend or wife, and receive the news of a baby on the way. **Our goal is to equip these young men to be loving fathers, active and present in the lives of their families.**

If you have a father, grandfather or mentor who has impacted your life, we would like to honor them this Father's Day. Just fill out the enclosed envelope, place your gift inside and **we will send a "Happy Father's Day" card to the fathers you honor.** We cannot thank you enough for your invaluable support!

Men play a vital role in maintaining a healthy, wholesome and moral society.
